Brabham Brabham BT62 / BT62R (Australia) Specification & Service Reference - Page 1/1

AUSTRALIAN AUTOMOTIVE ARCHIVE - TECHNICAL & SPECIFICATION DOSSIER

Make: Brabham | Model: Brabham BT62 / BT62R | Australian Market Years: 2018-2024
Vehicle Type: Track / Road Hypercar | Segment: Hypercar | Locally Built: Yes
Assembly Plants (AU): Edinburgh Parks, South Australia

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Brabham BT62 and BT62R was an ultra-exclusive mid-engine hypercar manufactured in Adelaide, South Australia by Brabham Automotive, led by Le Mans winner David Brabham. Developed without turbochargers or hybrid battery weight, the BT62 featured a high-tensile tubular steel chassis with integrated carbon-kevlar monocoque safety cell, carbon-fibre body panels, and a mid-mounte d naturally aspirated 5.4-litre modular V8 revving to 8,200 rpm and developing 522 kW (700 hp) and 667 Nm. Generating 1,200 kg of aerodynamic downforce with a dry weight of only 972 kg, the BT62 shattered closed-cockpit lap records at Mount Panorama Bathurst (1m 58.69s).

Hand-built in Edinburgh Parks, Adelaide, the BT62 was offered in Competition, Ultimate Track, a nd road-compliant BT62R specifications. The BT62R added an axle lift system, air conditioning, heated windshield, road exhaust muffler, and Australian ADR compliance.

SERIES / GENERATION: BT62 (Brabham BT62 & BT62R) [2018-2024]

Body Styles: 2-door track hypercar, 2-door road-compliant coupe (BT62R) | ANCAP: None
5.4L quad-cam naturally aspirated V8 (522kW/667Nm), 6-speed Holinger sequential paddle-shift ge arbox, carbon-carbon brakes, 1,200 kg downforce, 972 kg dry weight.

Engines Offered in Australia:

- Brabham-5.4-NA-V8: 5.4L (5400cc) V mid-mounted8 (Naturally Aspirated, Petrol (98 / 102 Octane Racing)

Australian Badges / Trims:

- BT62R (Road): Drivetrain=RWD, Trans=6-speed Holinger sequential paddle-shift, AUD $1800000-$2200000,

Factory Configurations:

* BT62R (Road) | 2-door coupe | Brabham-5.4-NA-V8 | 6-speed Holinger sequential paddle-shift | RWD | 52
