Ford Ford Mustang (Australia) Specification & Service Reference - Page 1/2

AUSTRALIAN AUTOMOTIVE ARCHIVE - TECHNICAL & SPECIFICATION DOSSIER

Make: Ford | Model: Ford Mustang | Australian Market Years: 1965-2026
Vehicle Type: Fastback Coupe / Convertible | Segment: Sports / Muscle Car | Locally Built: Yes
Assembly Plants (AU): Homebush, New South Wales (1965-1966 RHD factory conversions), Campbellfield, Victo

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Ford Mustang has a storied heritage in Australia stretching back six decades. In 1965, Ford Australia officially imported and converted 400 iconic 1965-1966 notchback Mustangs to right-h and drive at Homebush, NSW, while touring car legend Norm Beechey campaigned a 1965 Mustang to Australia's first Australian Touring Car Championship win for an American V8. In 2001, Ford Tic kford Experience (FTE) in Campbellfield, Victoria undertook a heroic $4 million engineering pro gram to convert 250 SVT Mustang Cobras featuring independent rear suspension and 240 kW 4.6L DO HC 32V modular V8s. In late 2015, Ford delivered the first global factory right-hand drive FM M ustang to Australia, creating unprecedented multi-year customer waiting lists. The FM/FN genera tions and all-new 2024+ S650 generation (featuring the 362 kW 5.0L Gen-4 Coyote V8 and 373 kW D ark Horse) made Mustang Australia's best-selling sports car for seven consecutive years.

The 2001 Tickford Cobra conversion was a monumental engineering triumph: TVE completely re-engi neered the front floor pan, steering rack, wiring harness, and air conditioning to OEM right-ha nd drive standards, winning full compliance approval under Australian Design Rules. In modern t imes, the Mustang represents Ford Australia's primary weapon in Supercars Championship touring car racing, carrying the blue oval flag across Mount Panorama.

SERIES / GENERATION: First-Gen-AU (First Generation Mustang (Australian Delivery)) [1965-1973]

Body Styles: 2-door hardtop coupe, 2-door fastback | ANCAP: None
Official 1965-66 Ford Australia Homebush RHD conversions and private imports. Won the 1965 Aust ralian Touring Car Championship with Norm Beechey.

Engines Offered in Australia:

- Windsor-289-V8: 4.7L (4727cc) V8 (Naturally Aspirated, Petrol) | 149.0 kW / 382.0 Nm

Australian Badges / Trims:

- Mustang Hardtop (AU): Drivetrain=RWD, Trans=3-speed Cruise-O-Matic automatic, 4-speed manual floor, A

Factory Configurations:

* Mustang Hardtop (AU) | Coupe | Windsor-289-V8 | 3-speed Cruise-O-Matic automatic | RWD | 149.0kW/382.

SERIES / GENERATION: SN-95-Tickford (SN-95 Tickford Mustang SVT Cobra) [2001-2002]

Body Styles: 2-door coupe, 2-door convertible | ANCAP: None
Hand-built right-hand drive conversion by Tickford Vehicle Engineering (TVE) in Campbellfield, Victoria. 240 kW 4.6L hand-assembled DOHC 32V modular V8.

Engines Offered in Australia:

- Modular-4.6-DOHC-32V: 4.6L (4601cc) V8 (Naturally Aspirated, Petrol) | 240.0 kW / 430.0 Nm

Australian Badges / Trims:

- Mustang SVT Cobra Coupe: Drivetrain=RWD, Trans=5-speed manual Tremec T-45 / TR-3650, AUD $85000-$8900

Factory Configurations:

* Mustang SVT Cobra Coupe | Coupe | Modular-4.6-DOHC-32V | 5-speed manual Tremec T-45 / TR-3650 | RWD |

SERIES / GENERATION: FM-FN (FM / FN Mustang (S550)) [2015-2023]

Ford Ford Mustang (Australia) Specification & Service Reference - Page 2/2

Body Styles: 2-door fastback coupe, 2-door convertible | ANCAP: 3

First global factory right-hand drive Mustang. Multi-link IRS, 2.3L EcoBoost turbo, 5.0L Coyote V8 up to 339 kW, and track-focused Bullitt and Mach 1 editions.

Engines Offered in Australia:

- Coyote-5.0-V8-Gen3: 5.0L (5038cc) V8 (Naturally Aspirated, Petrol) | 339.0 kW / 556.0 Nm

Australian Badges / Trims:

- GT Fastback (5.0L V8): Drivetrain=RWD, Trans=6-speed manual Getrag MT-82 with rev matching, 10-speed

Factory Configurations:

* GT Fastback (5.0L V8) | Coupe | Coyote-5.0-V8-Gen3 | 6-speed manual Getrag MT-82 with rev matching |

SERIES / GENERATION: S650 (S650 Next-Gen Mustang) [2024-2026]

Body Styles: 2-door fastback coupe, 2-door convertible | ANCAP: None

Next-Gen Mustang featuring fighter-jet inspired cockpit with twin curved displays, 362 kW Gen-4 Coyote V8, Electronic Drift Brake, and the flagship 373 kW Dark Horse.
