# Hdt HDT VK SS Group A (’Blue Meanie’) (Australia) Specification & Service Reference - Pa

## AUSTRALIAN AUTOMOTIVE ARCHIVE - TECHNICAL & SPECIFICATION DOSSIER

Make: Hdt | Model: HDT VK SS Group A (’Blue Meanie’) | Australian Market Years: 1985-1985
Vehicle Type: Sedan | Segment: Homologation Special / Muscle Car | Locally Built: Yes
Assembly Plants (AU): Port Melbourne, Victoria

### 1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The HDT VK SS Group A, universally affectionately known as the ’Blue Meanie’, is the most rever ed homologation muscle car in Australian touring car racing history. Built by Peter Brock’s Hol den Dealer Team Special Vehicles at 124 Bertie Street, Port Melbourne in 1985, the Group A was created to homologate the Commodore under international FIA Group A racing regulations. All 500 cars were painted in striking Formula Blue, featuring a de-stroked 4.9-litre (4987cc) V8 with Crane cam and roller rockers, M21 4-speed manual gearbox, Scheel velour bucket seats, and disti nctive white 16-inch Aero alloy wheels.

Under FIA Group A regulations, engine capacity determined vehicle minimum racing weight. The tr aditional Holden 308ci (5044cc) placed the Commodore into the heavy over-5,000cc weight divisio n. HDT and Holden engineer Larry Perkins de-stroked the engine crankshaft by 0.040 inches, redu cing capacity to 4,987cc (304ci) to slip beneath the 5,000cc limit and shed over 100 kg of requ ired racing ballast. The 500 road cars were snapped up instantly by collectors and racers.

### SERIES / GENERATION: VK-Group-A (VK SS Group A & Group 3) [1985-1985]

Body Styles: 4-door sedan | ANCAP: None
500 homologation specials finished in Formula Blue; 4,987cc V8 (196kW/418Nm), Crane cam, roller rockers, Scheel interior, white 16-inch Aero wheels.
