Holden Holden Adventra & Crewman (Australia) Specification & Service Reference - Page

AUSTRALIAN AUTOMOTIVE ARCHIVE - TECHNICAL & SPECIFICATION DOSSIER

Make: Holden | Model: Holden Adventra & Crewman | Australian Market Years: 2003-2008
Vehicle Type: All-Wheel-Drive Cross Wagon / Dual-Cab Utility / Cab Chassis | Segment: Large / Crossover S
Assembly Plants (AU): Elizabeth, South Australia

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

Developed during Holden's multi-million dollar engineering expansion under the VY/VZ Commodore program, the Adventra and Crewman represented audacious Australian engineering innovations. The 2003 Crewman was Australia's first locally designed and manufactured monocoque dual-cab utility, seating five adults on an extended 3,200 mm wheelbase with a heavy-duty leaf-sprung live rear axle capable of carrying up to a tonne. The Adventra was Holden's crossover all-wheel-drive sport wagon, boasting an Australian-engineered 'Cross-Trac' permanent AWD system (62% rear, 38% front torque split with automatic brake-traction management) and raised ground clearance. Holden combined the two concepts to create the monstrous Crewman Cross 8 and Cross 6, alongside V8 SS performance dual-cabs.

The Cross-Trac AWD system was developed entirely in-house by Holden engineers at Fishermans Bend and tested across the Simpson Desert and Mount Hotham snowfields. It delivered incredible off-road tractive ability without low-range gearing. The Crewman SS and Cross 8 became instant cult machines for tradies who wanted Monaro V8 thunder combined with family dual-cab practicality.

SERIES / GENERATION: VY-II (VY Series II Adventra & Crewman) [2003-2004]

Body Styles: 5-door AWD wagon, 4-door dual-cab ute | ANCAP: 4
Launch of Adventra AWD (CX8, LX8) powered by Gen III 5.7L LS1 V8 (235 kW), and Crewman (Base 3.8L V6, SS 5.7L V8 235 kW, and Crewman Cross 8 AWD).

Engines Offered in Australia:

- ECOTEC-3.8-V6: 3.8L (3791cc) V6 (Naturally Aspirated, Petrol) | 152.0 kW / 305.0 Nm
- Gen-III-5.7-LS1: 5.7L (5665cc) V8 (Naturally Aspirated, Petrol) | 235.0 kW / 460.0 Nm

Australian Badges / Trims:

- Adventra LX8: Drivetrain=AWD, Trans=4-speed automatic heavy duty 4L65-E, AUD $52990-$56990, Fuel=15.2
- Crewman SS: Drivetrain=RWD, Trans=6-speed manual Tremec T56, 4-speed automatic 4L65-E, AUD $46990-$49
- Crewman Cross 8: Drivetrain=AWD, Trans=4-speed automatic heavy duty 4L65-E, AUD $51990-$54990, Fuel=1

Factory Configurations:

* Adventra LX8 | AWD Wagon | Gen-III-5.7-LS1 | 4-speed automatic heavy duty 4L65-E | AWD | 235.0kW/460.
* Crewman SS | Dual Cab Ute | Gen-III-5.7-LS1 | 6-speed manual Tremec T56 | RWD | 235.0kW/460.0Nm
* Crewman Cross 8 | Dual Cab Ute | Gen-III-5.7-LS1 | 4-speed automatic heavy duty 4L65-E | AWD | 235.0k

SERIES / GENERATION: VZ (VZ Series Adventra & Crewman) [2004-2008]

Body Styles: 5-door AWD wagon, 4-door dual-cab ute, 2-door cab chassis (One Tonner) | ANCAP: 4
VZ powertrain update. Introduction of 190 kW Alloytec V6 in Adventra SX6/CX6 and Crewman Cross 6, alongside upgraded 250 kW Gen III 5.7L and 260 kW 6.0L L76 V8 in Crewman SS / SSZ.

Engines Offered in Australia:

- Alloytec-190-V6: 3.6L (3564cc) V6 (Naturally Aspirated, Petrol) | 190.0 kW / 340.0 Nm
- Gen-IV-6.0-L76: 6.0L (5967cc) V8 (Naturally Aspirated, Petrol) | 260.0 kW / 510.0 Nm

Australian Badges / Trims:

- Adventra CX6: Drivetrain=AWD, Trans=5-speed automatic 5L40-E with paddle shifters, AUD $44990-$47990,

- Crewman SSZ: Drivetrain=RWD, Trans=6-speed manual Tremec T56, 4-speed automatic 4L65-E, AUD $49990-$5

Factory Configurations:

* Adventra CX6 | AWD Wagon | Alloytec-190-V6 | 5-speed automatic 5L40-E with paddle shifters | AWD | 19
* Crewman SSZ | Dual Cab Ute | Gen-IV-6.0-L76 | 6-speed manual Tremec T56 | RWD | 260.0kW/510.0Nm
