Vehicle Type: Mid-size SUV (5-seater & 7-seater) | Segment: Medium / Large SUV | Locally Built: No
Assembly Plants (AU): Imported (Bupyeong and Gunsan, South Korea - GM Daewoo / GM Korea)

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Holden Captiva was Holden's core mid-size family SUV between 2006 and 2018, competing in Au stralia's exploding SUV segment against the Ford Territory and Toyota Kluger. Built on GM's glo bal Theta platform, the range uniquely comprised two distinct body styles: the 5-seater Captiva 5 (Opel Antara twin) and the 7-seater Captiva 7 (Chevrolet Captiva). Over 150,000 Captivas fou nd homes in Australian driveways thanks to keen pricing, standard three-row seating, AWD capabi lity, and Australian-built Alloytec 3.2L and 3.0L SIDI V6 engines alongside 2.0L and 2.2L commo n-rail turbo diesels. Series II arrived in 2011 with refreshed styling, before the model was re placed by the Equinox and Acadia.

The Captiva played a vital role in Holden's transition from traditional rear-drive station wago ns to modern crossover SUVs. The early V6 models featured the 3.2-litre version of Holden's Aus tralian-manufactured Alloytec V6, cast at Port Melbourne and shipped to Korea for vehicle assem bly. The Captiva was renowned for offering 7-seat packaging at a sub-$40k price point.

SERIES / GENERATION: CG-Series-I (CG Captiva Series I) [2006-2011]

Body Styles: 5-door SUV (5-seat), 5-door SUV (7-seat) | ANCAP: 4
Launch of Captiva 7 and sporty Captiva MaXX/5. Powered by Australian-built Alloytec 3.2L V6 and 2.0L VCDi common-rail turbo-diesel with on-demand AWD.
