Holden Holden Gemini (Australia) Specification & Service Reference - Page 1/1

AUSTRALIAN AUTOMOTIVE ARCHIVE - TECHNICAL & SPECIFICATION DOSSIER

Make: Holden | Model: Holden Gemini | Australian Market Years: 1975-1987
Vehicle Type: Sedan / Coupe / Wagon / Van | Segment: Small | Locally Built: Yes
Assembly Plants (AU): Acacia Ridge, Queensland, Pagewood, New South Wales

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Holden Gemini was Australia's best-selling four-cylinder car of the 1970s and early 1980s. Developed from GM's global T-car platform (shared with the Opel Kadett C, Isuzu Bellett Gemini, and Chevrolet Chevette), the Gemini won the prestigious 1975 Wheels Car of the Year award on debut. Over 226,000 units were produced across TX, TC, TD, TE, TF, and TG rear-wheel-drive series before transitioning to the front-wheel-drive RB series.

Built primarily at Holden's Acacia Ridge assembly plant in Brisbane, Queensland, the Gemini was powered by Isuzu's robust chain-driven 1.6-litre G161Z SOHC cross-flow four-cylinder engine. In 1978, the TD series introduced Holden's Radial Tuned Suspension (RTS), transforming handling. The 1979 TE introduced an Isuzu 1.8-litre diesel option capable of under 5.0 L/100km, while the final TG series spawned the collector-grade ZZ/Z sporting edition.

SERIES / GENERATION: TX-TG (RWD Gemini (TX, TC, TD, TE, TF, TG)) [1975-1985]

Body Styles: 4-door sedan, 2-door coupe, 3-door station wagon, 3-door panel van | ANCAP: None
1975 Wheels Car of the Year winner; Isuzu 1.6L G161Z SOHC engine, RTS suspension on TD, diesel option on TE, and TG ZZ/Z sporting edition.

Engines Offered in Australia:

- Isuzu-G161Z: 1.6L (1584cc) Inline4 (Naturally Aspirated, Petrol) | 50.0 kW / 111.0 Nm

Australian Badges / Trims:

- SL: Drivetrain=RWD, Trans=4-speed manual, 5-speed manual, Tri-Matic 3-speed auto, AUD $3290-$7200, Fu
- ZZ/Z: Drivetrain=RWD, Trans=5-speed manual, AUD $8500-$9200, Fuel=8.5L/100km

Factory Configurations:

* SL | 4-door sedan | Isuzu-G161Z | 4-speed manual | RWD | 50.0kW/111.0Nm
