Vehicle Type: Sports Fastback Liftback | Segment: Large Sports Sedan | Locally Built: No
Assembly Plants (AU):

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Kia Stinger arrived in Australia in late 2017 just as Holden and Ford ceased local manufact uring, instantly becoming the spiritual successor to the rear-wheel-drive Falcon and Commodore. Powered by a 272kW twin-turbo V6, it was adopted by Australian police forces as a high-speed p ursuit interceptor.

Engineered under Albert Biermann and tuned extensively by Kia Australia's suspension team on re gional Australian roads, the Stinger GT won praise for incredible highway overtaking thrust and rear-drive balance. The Queensland Police Service (QPS) and Northern Territory Police selected the 3.3L twin-turbo V6 Stinger as their primary highway patrol vehicles.

SERIES / GENERATION: CK (Stinger 1st Generation) [2017-2023]

Body Styles: 5-door Liftback Fastback | ANCAP: 5 Stars
Rear-wheel-drive grand tourer featuring the 272kW 3.3L Twin-Turbo Lambda II V6, mechanical limi ted-slip differential, Brembo brakes, and Australian police highway patrol duty.
