Leyland Australia Leyland P76 (Australia) Specification & Service Reference - Page 1/1

AUSTRALIAN AUTOMOTIVE ARCHIVE - TECHNICAL & SPECIFICATION DOSSIER

Make: Leyland Australia | Model: Leyland P76 | Australian Market Years: 1973-1975
Vehicle Type: Sedan | Segment: Full-size | Locally Built: Yes
Assembly Plants (AU): Zetland, New South Wales

1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Leyland P76 was Australia's most daring automotive gamble. Developed under project leader P eter North at BMC/Leyland's Zetland plant in Sydney to break the Holden-Ford-Chrysler monopoly, the P76 was styled by Italian master Giovanni Michelotti. It boasted world-class engineering: an all-aluminium 4.4-litre V8 derived from Rover weighing less than rivals' iron sixes, standar d front power disc brakes, MacPherson strut front suspension, side-impact door bars, and a boot famously demonstrated by swallowing an entire 44-gallon drum. The P76 won the 1973 Wheels Car of the Year and conquered the 1974 World Cup Rally across the Sahara before factory closure cut short its life.

Launched in June 1973, the P76 suffered from supplier strikes and early teething quality defect s that tarnished its market launch. Despite these setbacks, the car was praised by motoring jou rnalists for exceptional ride comfort, steering precision, and fuel economy from the lightweigh t alloy V8. Around 18,000 sedans were built at Zetland before Leyland Australia's parent compan y collapsed in the UK, leading to the closure of the Sydney plant in late 1974.

SERIES / GENERATION: P76 (Leyland P76 Series) [1973-1975]

Body Styles: 4-door full-size sedan | ANCAP: None
1973 Wheels Car of the Year winner; Michelotti styling, 4.4L all-alloy V8 and 2.6L OHC six; cav ernous boot; Deluxe, Super, and Executive trims.

Engines Offered in Australia:

- E6-2.6-OHC: 2.6L (2622cc) Inline6 (Naturally Aspirated, Petrol) | 82.0 kW / 204.0 Nm
- Alloy-4.4-V8: 4.4L (4416cc) V8 (Naturally Aspirated, Petrol) | 143.0 kW / 386.0 Nm

Australian Badges / Trims:

- Deluxe: Drivetrain=RWD, Trans=3-speed column manual, 4-speed floor manual, Borg-Warner 35 3-speed aut
- Executive: Drivetrain=RWD, Trans=Borg-Warner 35 3-speed automatic, AUD $4104-$4650, Fuel=14.5L/100km

Factory Configurations:

* Executive | 4-door sedan | Alloy-4.4-V8 | Borg-Warner 35 3-speed automatic | RWD | 143.0kW/386.0Nm
