1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Nissan Navara is one of Australia's premier dual-cab and commercial utes. Spanning four gen
erations, from the durable D21 and indestructible D22 workhorses to the powerhouse 550Nm V6 tur
bodiesel D40 and coil-sprung D23 with locally engineered Premcar Warrior editions, the Navara h
as served on Australian building sites, farms, and off-road expeditions for nearly four decades
.

First sold in Australia in 1986 replacing the Datsun 720, the Navara popularized dual-cab 4x4 r
ecreation in Australia. The D22 generation established a legendary reputation for mechanical to
ughness in the mines and bush, running in parallel with the larger, luxurious D40. In 2011, the
D40 ST-X 550 introduced a crushing 550Nm 3.0L V6 turbodiesel, resetting the performance ute be
nchmark. Today, the D23 NP300 features the PRO-4X Warrior, re-engineered in Melbourne by Premca
r specifically for extreme Australian outback conditions.
