1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The cult Malaysian heroes of Australian roads. The Proton Satria GTi became an instant hot hatc
h sensation in 1999, engineered with genuine Lotus suspension wizardry, Recaro bucket seats, ri
veted widebody arch flares, and a twin-cam Mitsubishi engine. Alongside it, the Proton Jumbuck
carved out a unique niche from 2003 as Australia's most affordable brand-new ute, offering comp
act car economy with a half-tonne payload.

First launched in Australia in 1997 with the Satria 3-door hatch. When Proton acquired Lotus Ca
rs in 1996, the Lotus engineering team transformed the Satria into the GTi, which Australian au
tomotive journalists lauded as a giant-slaying budget driver's car. In 2003, the Jumbuck ute ar
rived with an entry price of just $11,990 driveaway, quickly becoming a fixture with inner-city
couriers, gardeners, and tradies.
