1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Toyota RAV4 created the compact car-based recreational SUV category in 1994. Across five ge
nerations, it grew into Australia's favourite SUV, with the XA50 Hybrid triggering unprecedente
d multi-month waitlists.

Launched in Australia in 1994 as a quirky 3-door with Celica underpinnings, the RAV4 revolution
ized Australian motoring by providing high ride height without the truck-like penalties of trad
itional body-on-frame 4WDs. The introduction of the XA50 Hybrid in 2019 transformed it into Aus
tralia's best-selling SUV outright.
