1. MODEL OVERVIEW & AUSTRALIAN MARKET NOTES

The Toyota Supra is a halo sports grand tourer with an indelible legacy in Australian motorspor t and enthusiast culture. From early Celica Supra models through the twin-turbo 2JZ-GTE JZA80 s upercar killer to the modern B58-powered GR Supra, it represents Toyota's front-engine rear-dri ve inline-six performance pinnacle.

First sold locally in 1983 as the Celica Supra MA61, the nameplate reached motorsport fame when Peter Williamson campaigned the MA70 Turbo in the Australian Touring Car Championship. While t he iconic JZA80 Mk IV twin-turbo was primarily imported as a low-volume/grey-market legend in A ustralia, the GR Supra returned officially in 2019.
